**Convert
your
Coach to
Single
Pane
Glass
and Save!**

The single pane laminate weighs 2.3 pounds less per square foot compared to the double pane unit, yielding an estimated overall weight reduction at 350 pounds per coach. With similar performance characteristics and a lower price than the double pane glass, changing over to single pane glass will save you money!

Convert your sashes as needed from double pane to single pane with our single pane glass conversion kits which includes the Sash Assembly and the required hardware to perform the conversion. Once you change from double pane to single pane, you will only need to purchase the sash assembly as a replacement.

Double Pane Glass	First Time Conversion Kit	Single Pane Sash Assembly	Entire Sash Kit Coach Set	(includes:)
